

# Photosynthesis Crossword

**Instructions:** Use the clues below to fill in the grid. Each numbered square marks where an answer begins. Across answers run left to right; Down answers run top to bottom.

## ACROSS

3. Hydrogen source for photosynthesis
4. Photosynthetic organism
5. Light-driven food-making process
9. Light-absorbing molecule
11. Leaf gas-exchange pores
14. Green light-absorbing pigment
15. Chloroplast fluid space
16. \_\_\_\_ reactions, photosynthesis stage 1
17. \_\_\_\_ dioxide, plant's carbon source
18. Energy molecule, briefly

## DOWN

1. \_\_\_\_ cycle, photosynthesis stage 2
2. Calvin cycle electron carrier
6. Photosynthesis byproduct
7. Energy source for plants
8. Main photosynthesis organ
10. Sugar made by photosynthesis
12. Chloroplast disc-shaped membrane
13. Photosynthesis site in plant cells
